SINCE 1988
TJP MATS PVT.LTD.
Manufacturers of premium quality rubber floorings

Peerless practices make the perfect leader

To endure the test of time and become the best of all - a simple statement with deeper meaning underscores the brilliant TJP tale. Our success story brings together multiple strands like orientation and commitment, professionalism and precision, cooperation and accountability and efficacy and transparency that really made us the premium banner in the rubber flooring industry.

Prime emphasis on quality

We commenced our journey under the banner **THOMSON RUBBERS**, founded by our father and a veteran in the field, **P.K. Thomas**, way back in 1988. We have had the best lessons in business and in life. So we always lay prime emphasis on quality. It remains the same even after all these four decades. This rigorous practice of quality at all levels of business accounts for the visible success we have achieved as the most preferred manufacturers, suppliers and exporters of rubber flooring products. Our augmented strides are all inspired from this energizing quality perspective.

Vision

To become a significant player in the rubber floor matting industry by offering innovative and superior quality products conforming to our legacy and core values.

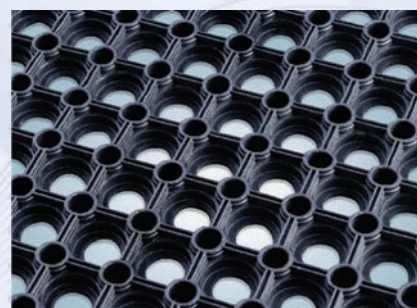

Mission

We work hard to meet our commitment to give the most compelling products to the customers.

Paramount banner of the field

The exponential growth of the company is attributed to the matchless quality of our distinct and sought after products. We offer a fine product line comprising of cow mat, gym mat, hexagon mat, hollow mat, polypropylene mat, grill mat, roll mat, glass mat and wave mat, with its numerous variables for industrial, restaurants, kitchens, stables, gyms and playground applications. The products are meticulously manufactured as to meet the specific requirements of diverse industry segments. We manufacture our products from pure natural rubber.

Pivotal role in the market

An ISO 9001 certified company we have a vast network of dealers across the country that turns BRAND TJP a renowned player in the national market as well. Our export division diligently manages overseas operations to Europe, US, Middle East and Africa.

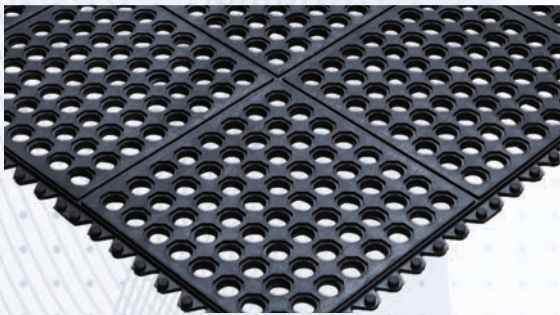

Perfection is the hallmark

TJP Group aligns its direction and goals in the most perfect manner, which consistently upgrades the efficacy and worth of the company. The company, with skilled and dedicated workers at the production front is ably managed by a team of supervisors, competent in managing things. Stringent hygienic measures are put into practice, in accordance with stipulations. We employ state-of-the-art and imported machinery for manufacture. A fully fledged R&D division provides better insights into production and marketing.
